are authentic and shot at various projects

No fake or stock images were used!

# CrystalBlue

Micro Business of the Year 2020

Hello from US!

CrystalBlue Deep Cleaning division has successfully deep cleaned more than **1,500+** properties.

Using **industrial grade equipment** and branded line of cleaning products, we make a difference both functionally and emotionally.

Try us and feel the difference.

In simple terms, deep cleaning is a much detailed and comprehensive version of general cleaning. It includes usage of industrial grade equipment which are not provided in general cleaning like heavy duty scrubbing machine, steam cleaning machine, jet pressure washing machine, industrial vacuum and blower machines in some instances.

Deep Cleaning and general cleaning can be contrasted to a car's major and minor

# What is DEEP CLEANING

## TEAM

More than 2,500+ Deep Cleanings

Supervisors for Quality Check

Highly trained deep cleaning specialists

Our  
Deep Cleaning  
Includes

## STEAM CLEANING

Top tier steam cleaning machines are provided in our deep cleaning sessions.

Steam cleaning is used extensively for upholstery, carpets, kitchens, bathrooms, window sills and other key touch points.

## SCRUBBING

Floor Scrubbing is an integral part of our deep cleaning.

We use various kinds of pads, brush discs to adapt to the flooring.

Floor scrubbing will sparkle your flooring and get rid of heavy duty stains and clean filthy grouts.

## PRESSURE WASHING

Our deep cleaning includes jet pressure washing (Villas, or select balconies).

Pressure washing not only helps external areas look beautiful but also help get rid of wear and tear by getting rid of algae, fungus, molds, chalk, insects, weeds etc.

# INDUSTRIAL VACUUM

We use industrial vacuums for extensive and heavy duty projects.

Industrial vacuums facilitate the scrubbing process with efficient absorption of water and chemical agents.

## BLOWERS

Special blowers are used for certain Villas wherein extensive debris or profuse leaves are scattered.

Blowers are also used on grass to clean of the embedded dust.

## LADDERS

Ladders are an absolute must for Deep Cleanings.

We use them to clean external AC vents, high closets, light fixtures, tall windows etc

# DEEP CLEANING PROCESS

 CrystalBlue

A black and white photograph of two workers in a commercial space, likely a hallway or office area. They are wearing face masks and dark clothing. One worker is operating a large floor scrubber machine, while the other is using a smaller, more compact machine. The floor is covered in a patterned carpet. The ceiling has a grid of recessed lighting. On the right side, there is a blue vertical bar containing the text 'DEEP CLEANING SCOPE'.

## DEEP CLEANING SCOPE
